Charging

Before first use, fully load the battery with the included original Micro USB charging cable. Connect the Micro USB charging cable to an USB adapter* (5V/500mA) (*not included) or computer USB port, and the other end to the Micro USB charging port of the headphone. The RED LED shines bright while charging in the OFF status. When the headphone is fully charged, the RED LED turns off and the BLUE LED turns on. (We recommend to turn off the headphone while charging. Otherwise it will take a longer time to get it fully charged.)

Product view

1	**Power on/off, Play/Pause, Hands-free:** Long press to power on. BLUE LED turns on and goes off. Long press to power off. RED LED turns on and goes off. Short press to receive or end calls, play or pause music.
2	**LED indicator light:** Under Bluetooth pairing mode, BLUE and RED LED flash quickly. While headphone is being charged, RED LED turns on. When charging is completed, RED LED turns off and BLUE LED turns on.

5	**Micro USB charging connector**
6	**Ear buds**

Bluetooth

Turn on the headphone by pressing the "Play" button. The BLUE LED turns on and goes off. Bluetooth works spontaneously, searching for previously paired Bluetooth devices. The Bluetooth pairing mode is shown by the quickly flashing BLUE and RED LED. If the headphone fails to connect, turn on your Bluetooth device to search the headphone with the name **"Musicman BT-X23"**. PIN code is "0000". After pairing successfully, the BLUE LED is blinking. When the headphone is connected with your Smartphone and you receive an incoming call, you can press the ▶❙❙ button shortly to take the call. To reject the call you have to press the ▶❙❙ button for about 1–2 seconds.

Warnings ● If the device does not turn on after switching it on, or it turns off after turning it on, check whether the battery is fully charged. If it is OFF power, get it fully charged and try again later. ● Only charge the device with the DC 5V/500MA adapter* (*not included) or in USB slot of your PC with the provided original Micro USB charging cable. It would make the device fail to work or even damage it if it is not charged with recommended voltage. ● If the device fails to link to your mobile device or if it fails to play music after being connected, the user shall check if the correct PIN code is entered or if your mobile device supports A2DP. ● When the device works under LINE/AUX–IN mode, do not (!) increase the volume of your mobile phone, PC, MP3/MP4 Player, CD, DVD etc. to a large extend. A sound distortion may occur. In that case, decrease volume either of mobile phone, PC, MP3/MP4 Player, CD, DVD or device. The sound gets normal soon. ● Do not attempt to disassemble the device, it may result in short-circuit or even damage. ● Do not drop or shake the device, it may break internal circuit boards or mechanics. ● Keep the device in dry and ventilated environment. Avoid high humidity and high temperature. ● This device is not water resistant, therefore keep it away from moisture. ● Keep the device away from little children.
