Hints for Environment Protection: Packages materials are raw materials and can be recycled. Do not disposal old devices or batteries into the domestic waste. **Cleaning:** Protect the device from contamination and pollution (use a clean drapery). Avoid using rough, coarse-grained materials or solvents/aggressive cleaner. Wipe the cleaned device accurately. **Distributor:** Technaxx Deutschland GmbH & Co.KG, Kruppstr. 105, 60388 Frankfurt a.M., Germany
Product Overview

1	Soft ear hook
2	EL luminous cable of 35cm length
3	**EL luminous cable turn on/off button:** Long press to turn on EL light. Short press to adjust EL light mode. There are two EL light modes: a) light is on all the time, b) light flashes with the rhythm of music. (under this mode, if music stops more than 5 minutes, light turns off automatically.)
4	**Button for VOL down / Last track:** Short press → last track Long press → decrease volume
5	**Button for VOL up / Next track:** Short press → next track Long press → increase volume

6	**Indicator LED:** → After turning on the headphone, BLUE and RED indicator LED are blinking alternatively. BLUE indicator LED turns solid if headphone is paired via Bluetooth. → **Charging mode:** RED indicator LED turns solid while charging. RED indicator LED turns off if headphone is fully charged.
7	**Button for the functions Power ON/OFF, Play/Pause, Hands-free:** → Keep pressing the power button for 3 seconds to turn on the headphone. Meanwhile, BLUE and RED indicator LED are blinking alternatively. → **Under Bluetooth mode:** → short press to play or pause music → should someone call you, short press to receive or end phone call → double click to redial the last outgoing call.

8	Microphone	**9**	Micro USB charging connector

Charging the headphone

Before first use, fully load the battery with the included original Micro USB charging cable. Connect the Micro USB charging cable to an USB adapter* (5V/500mA) (*not included) or computer USB port, and the other end to the Micro USB charging port of the headphone. The RED LED shines bright while charging in the OFF status. When the headphone is fully charged, the RED LED turns off. (We recommend turning off the headphone while charging. Otherwise it will take a longer time to get it fully charged.)

How to plug the headphone in and fix it with the soft ear hook

In the picture you see as example, how to plug the headphone into the left ear.

The ear hook has to be fixed in your inner ear shell.

Then the headphone has a good and comfortable hold in your ear.

Bluetooth

Turn on the headphone by pressing the "POWER" button (7) for 3 seconds. The BLUE-RED LED will blink alternatively. Bluetooth works spontaneously. Open the Bluetooth option on your Smartphone and look for the Bluetooth name **"Musicman BT-X32"**. (If connection fails or a code is needed use PIN code "0000".) After pairing successfully, the BLUE LED is constantly on. When the headphone is connected with your Smartphone and you receive an incoming call, you can press the "POWER" button to take the call. To hang up you have to press the "POWER" button again. By double clicking the "POWER" button you can redial the last number you have called.

Activate the luminous cable

There are two EL light modes. To activate the luminous cable long press button (3) to turn EL light on. Short press button (3) to adjust EL light mode:

● First: Light is on all the time
● Second: Light flashes with the rhythm of music.

Note: Under the second mode, if music stops more than 5 minutes, light turns off automatically.

Troubleshooting

● The BT-X32 powers Off or does not turn On again → could be either a low battery or a problem with the power supply → charge the BT-X32 and check the connection of the Micro-USB cable. (We suggest charging the BT-X32 all 2-3 month if it is not used for a long time.)

● Noises are heard from the BT-X32 → could be a poor Bluetooth signal → to aviod noise, stay within the Bluetooth range of ~8m.

● No Bluetooth connection → could be (a) the Bluetooth connection is not in range, or (b) another mobile device (e.g. Smartphone, Tablet) is paired with the BT-X32 → (a) shorten the range to the Smartphone, or (b) unpair the other device.

Warnings

● Only charge the BT-X32 through the DC 5V Micro USB port by using the provided original Micro USB charging cable. You also can use an USB charging adapter but ONLY (!) up to DC 5V/500mA. Do not (!) charge the BT-X32 with more power!

● If the BT-X32 fails to link to your mobile device or if it fails to play music after being connected, the user shall check if your mobile device supports A2DP.

● Do not attempt to disassemble the BT-X32, it may result in short-circuit or even damage.

● Do not drop or shake the BT-X32, it may break internal circuit boards or mechanics.

● Keep the BT-X32 in dry and ventilated environment. Avoid high humidity and high temperature. Also batteries should not be exposed to excessive heat or direct sunlight.

● This BT-X32 is not water resistant; therefore keep it away from moisture.

● Keep the BT-X32 away from little children.
