**Powerful Magnification**

Unlock a new level of detail with the Digital Microscope Pro TX-277, featuring an impressive 50x magnification. Explore intricate textures and discover hidden details that are not visible to the naked eye

**Vivid Display**

Immerse yourself in a crystal-clear viewing experience on the 4.3-inch IPS display. The high-resolution screen ensures sharp and vibrant visuals, providing a real-time, high-definition glimpse into the microscopic world

**Flexible Viewing Options**

Customize your viewing experience with the adjustable display angle. Whether you prefer a straight-on view or a tilted perspective, the microscope kit offers flexibility to suit your needs, ensuring comfortable usage

**Enhanced Illumination for Detailed Observations**

Illuminate your subjects effectively with the 8 built-in LED lights. Adjust the brightness to suit different specimens and lighting conditions, ensuring optimal visibility
