Class	T1
Working temperature	-10 to +50°C
Weight / Dimension	555 g / 14 cm x 14 cm x 13.5 cm
Package contents	Light Beacon 12V TX-349, user manual

Product Overview

How to use

This high-visibility device is designed to alert other drivers to your vehicle's presence in case of a breakdown or emergency. It must be mounted on the roof of your vehicle to enhance visibility and ensure your safety on the road.

Important Safety Information

- This device is not a substitute for emergency assistance. Always call emergency services if necessary.
- Only use the light in emergency situations to avoid distraction to other drivers.
- Ensure the light is securely mounted before use to prevent any accidents.
- The warning light is intended for temporary use.
- Do not use the light while driving; it is for use when your vehicle is stationary.
- Keep the device and adapter out of reach of children.
- The light is water-resistant but not waterproof. Avoid use in heavy rain or conditions where the device may be submerged in water.

Powering the Light

- Plug the 12V adapter into your vehicle's cigarette lighter socket.
 - The light will automatically turn on once it is powered.
- If the light does not turn on, make sure your vehicle's ignition is on or in accessory mode.

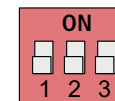

Operation

- The warning light will flash in a bright, attention-grabbing pattern. Ensure the light is visible to approaching drivers.
- Do not use the light while driving. Only activate the warning light when your vehicle is stationary.
- Place the light in case of an emergency only on top of your car.

Modes

The light features 3 different modes (3):

- Double flash mode - 1
- Sixtuple flash mode - 2
- Rotating mode - 3

To switch between the modes, unscrew the top yellow cover and move the switch to the 'ON' position as required. Screw the cover back onto the lamp. **Important:** Only set one mode to ON at a time, otherwise the lamp will distort the light pattern.

Note: Regulations of light pattern may vary depending on the country in which the lamp is used.

Turning Off the Light

- To turn off the light, unplug the adapter from the vehicle's cigarette lighter socket.
- Carefully remove the light from the roof of your vehicle.

Support

Service phone No. for technical support: **01805 012643**

(14 cent/minute from German fixed-line and 42 cent/minute from mobile networks). Free Email: support@technaxx.de

The support hotline is available Mon-Fri from 9 am to 1 pm & 2 pm to 5 pm.

Cleaning and maintenance

- Clean the equipment regularly with a moist cloth. Do not use cleaning agents or solvents.
- Ensure that no water can seep into the plugs. The ingress of water into an electric device increases the risk of an electric shock or damage of the device.
