Dual Functionality and Perfect for Outdoor Spaces

Elevate your outdoor experience with our Solar Table Power Plant 400W – a seamless blend of a functional table and a green energy powerhouse. Perfect for your terrace or balcony gatherings

Easy Assembly

Hassle-free setup is our promise. Our solar table arrives partially pre-assembled, so you can enjoy the benefits of renewable energy and a stylish table with minimal effort

Adjustable Solar Panel

Capture the sun's energy at its peak. Our PV module with adjustable angles (20°/30°/35°) guarantees you optimal energy yield, making your solar table as efficient as it is elegant

Micro-Inverter Included

We've taken care of every detail. Your Solar Table Power Plant comes equipped with a pre-mounted micro-inverter, delivering a powerful 400W (WiFi incl.) output for efficient energy conversion. It's the heart of your renewable energy solution
