VIP Video Pen FullHD 8GB TX-112

**Hidden spy camera can be used
at home or at office. Or any
other situation you can think of.
Just do not use it in the water, it
is not water proof!**

Easy to Use

Audio and Video recordings are simple to start and stop. Just press the button for it.

No software to load for file transfer. Connect the pen via USB with your computer and review the recorded footage.

Battery & Micro SD Card

It records up to 70 min continuously and 120 min on stand-by per single battery charge. The spy pen cam supports up to 32GB(not included in the pen) micro SD card. Also it has built-in 8GB storage (FAT32).

FullHD 1080P

This battery powered pen camcorder records 1080P (interpolated) color FHD video at 30FPS. You can get the crystal-clear video silently without anyone noticing due to the real pen appearance and hidden design lens.
