

Espresso To Go LX-060

668 g

Compact size and lightweight design

High quality materials

User-friendly operation

5min

Fast heat-up time

7500 mAh

Battery operated

Versatile compatibility

Rechargeable battery

60ml

Water tank

- Ideal for on the go, traveling, camping or for use in the office. Fits in backpacks or handbags and saves space
- The rechargeable battery enables operation without a plug socket, so the machine can be used anywhere, e.g. in the car, when camping or during outdoor activities. Long battery life for several cups
- The machine can be used with both capsules and ground coffee, giving you the choice between convenient capsules and freshly ground powder
- Thanks to fast heat-up technology, coffee / espresso is prepared in just a few minutes, ideal for a quick coffee break on the go
- Simple one-button controls that allow the machine to be operated with minimal effort, without complicated settings
- The batteries are rechargeable via USB-C, allowing for easy handling and flexibility when charging
- A sufficient amount for a small cup of coffee / espresso
