Application

When do you need a massage gun? Pain and spasm due to muscle contusion, sprain and strain. To help the swelling flow. Increase joint mobility. Eliminate muscle fatigue. Perfect for: running sports, fitness equipment, sports trends, fitness and body, health massage, etc.

6 Speeds

With high-frequency vibration (1200-3200 times/min), you can adjust the frequency and choose different massage heads to relax the tense and stiff muscles.

The LifenaXX LX-013 is a wireless vibration massage device. It reduces pain in the muscles, improves blood circulation, relaxes the musculature and improves the mobility of the musculature.
