## Danger!

When using appliances, a number of safety precautions must be observed in order to prevent injury and damage. Read these operating instructions / safety instructions carefully. Keep these well so that the information is available to you at available to you at all times. If you hand over the appliance to other persons, hand over these operating these operating instructions / safety instructions with it. We accept no liability for accidents or damage caused by non-observance of these manual and the safety instructions.

## Explanation of the symbols used

1. danger! - To reduce the risk of injury. Read the operating instructions.
2. caution! Wear hearing protection. Exposure to noise can cause hearing loss.
- 3 Warning of electrical voltage!
- 4 Warning of hot parts!

			
1	2	3	4

## Hints

- Only use the product for purposes due to its intended function
- Do not damage the product. Following cases may damage the product: Incorrect voltage, accidents (including liquid or moisture), misuse or abuse of the product, faulty or improper installation, mains supply problems including

power spikes or lightning damage, infestation by insects, tampering or modification of the product by persons other than authorized service personnel, exposure to abnormally corrosive materials, insertion of foreign objects into the unit, used with accessories not preapproved. ● Refer to and heed all warnings and precautions in the user manual.

## **Safety instructions**

- **Danger!** - Read the operating instructions to reduce the risk of injury
- **Caution!** Wear ear-muffs. The impact of noise can cause damage to hearing
- **Beware of hot parts!**
- **Inspect the equipment and accessories for transport damage.**
- **The equipment and packaging material are not toys.**
- **Do not let children play with plastic bags, foils or small parts. There is a danger of swallowing or suffocating!**
- **Please note that our equipment has not been designed for use in commercial, trade or industrial applications. Our warranty will be voided if the machine is used in commercial, trade or industrial businesses or for equivalent purposes.**
- **The electric power tool generates an electromagnetic field during operation. Under certain circumstances this field may actively or passively impede medical implants. To reduce the risk of serious or fatal injuries, we recommend persons with medical implants to consult their doctor and the manufacturer of the medical implant prior to using the equipment.**
- **When using the equipment to inflate objects, check the information and safety instructions provided by the manufacturer.**
- **Keep all safety devices, air vents and the motor housing free of dirt and dust as far as possible. Wipe the equipment with a clean cloth or blow it with compressed air at low pressure.**
- **Do not squeeze, collide or pull the power cord hard to avoid damage to electronic parts.**
- **Do not attempt to disassemble, it may result in short-circuit or even damage.**
- **Do not drop or shake, it may break internal circuit boards or mechanics.**
- **Do not expose to rain or moisture, dripping or splashing, to reduce the risk of fire or electrical shock.**
- **Keep the device in dry and ventilated environment, avoid high humidity/temperature.**
- **Do not install the device near any heat source (e.g. radiators, oven) and keep it away from direct sunlight.**
- **Keep the device away from little children.**

## **Warnings**

- **Do not disassemble the product, it may result in short-circuit or damage.**
- **Do not modify, repair or remove without professional guidance.**
- **Do not use corrosive or volatile liquid for cleaning.**
- **Do not drop or shake the device, it may break internal circuit boards or mechanics.**

## **Safety instructions**

- Never touch the product with wet or damp hands.
- The product can only be operated with the voltage described on the interior panel.
- Do not place the product on an unstable surface. The unit could be damaged or persons could be injured. Any attachments should be made only in accordance with the manufacturer's instructions or obtained from the manufacturer.
- The cable is sheathed and insulates the current. Do not place any objects on the cable, as this could cause the protective function to be lost. Avoid placing excessive stress on the cable, especially at sockets and plugs.
- If you want to pull the plug out of the socket, always pull on the plug and not on the cable. The cable could otherwise break.
- Do not overload wall outlets, extension cords, or other wiring as this may result in fire or electric shock.
- Do not insert any objects into the openings of the unit, as current flows in some places and contact may cause fire or electric shock.
- Unplug the power cord from the power outlet for cleaning.
- Do not use liquid cleaners or cleaning sprays. The product may only be cleaned with a damp cloth.
- Do not connect any additional devices that are not recommended by the manufacturer.
- Do not use the product in direct sunlight or places where the temperature may exceed 50°C for a long time.

## **Safety rules for rechargeable batteries**

The product uses rechargeable batteries and can go wherever you need them. But ALL batteries can EXPLODE, CATCH FIRE, and CAUSE BURNS if disassembled, punctured, cut, crushed, short-circuited, incinerated, or exposed to water, fire, or high temperatures, so you must handle them with care.

To use the rechargeable batteries safely, follow these guidelines:

- ALWAYS store spare batteries in a cool, dry, ventilated area.
- ALWAYS make sure that the battery compartment is clean and free of any debris before inserting new batteries.
- ALWAYS make sure the battery contacts are aligned.
- ALWAYS keep all batteries away from children.
- ALWAYS follow local waste and recycling laws when throwing used batteries away.
- ALWAYS use the product to charge the rechargeable batteries.

- NEVER place the rechargeable batteries in a pocket, purse, or other receptacle, especially those containing metal objects.
- NEVER store the rechargeable batteries with hazardous or combustible materials.
- NEVER let the rechargeable battery or battery compartment get wet - before, during, or after installation. (Remember, your product itself is weatherproof, but its interior battery compartment and batteries aren't.)
- NEVER disassemble, cut, crush, puncture, short-circuit, dispose of batteries in fire or water, or expose the rechargeable battery to temperatures above 50°C.

## **Disclaimer**

● In no event shall Technaxx Deutschland be liable for any direct, indirect punitive, incidental, special consequential damage, to property or life, improper storage, whatsoever arising out of or connected with the use or misuse of their products.

## **Key Operations**

- POWER button (3): Long press this button to turn on/off the device, and short press to turn on or off the inflation function after turning it on.
- LED button (8): press this button to turn on and off the LED light.
- "-" (4) key: After turning on, short press this key to reduce the desired air pressure value.
- MODE button (7): After turning on the device, short press the "MODE key" to switch between different preset modes, such as car, motorcycle, bicycle, ball. Long press the "MODE" button to switch between different units of air pressure, such as PSI, BAR, KPA, Kg/cm<sup>2</sup>.
- "+" (2) button: After turning on, short press this button to increase the desired air pressure value.

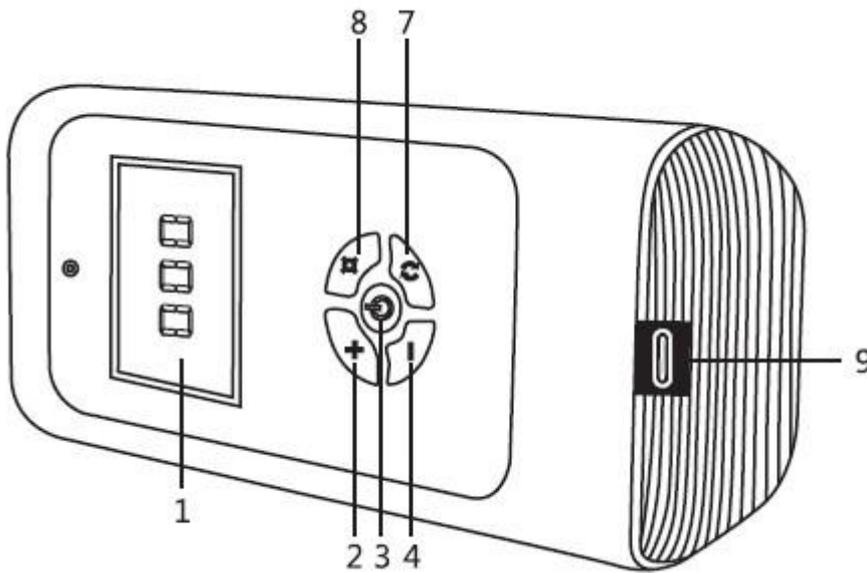

## **Starting the inflation process**

After you have made all the settings, briefly press the on/off switch (3) to start the start the inflation process. The display (1) shows the current pressure value. When the set pressure has been reached, the process stops automatically.

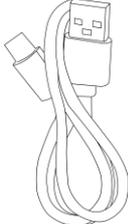

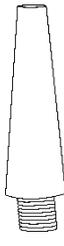

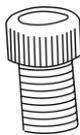

You can stop the pumping process at any time by pressing the on/off switch (3).

# Product overview

## Main Unit

## Accessory

				
5	6	10	11	12
1	Display	7	Mode button	
2	+ button	8	LED button	
3	On/off button	9	USB-C Charging port	
4	- button	10	Ball needle	
5	Air hose with 90° Adapter	11	Small Air adapter	
6	USB Charging cable A-C	12	Bicycle Adapter	

Function	Adjustable range
Car Mode	1.75-3.00 bar
Motorbike	1.75-3.00 bar
Bicycle Mode	2.05-4.45 bar
Ball mode	0.20-1.10 bar
Custom mode	0.20-10.00 bar

## Charging

- Only use the supplied USB-C charging cable.
- To charge the rechargeable air pump, connect the charging cable (6) to the USB-C charging port (9), as well as with a suitable power adapter (not included in the scope of delivery! A DC 5V/2A or higher current adapter should be selected for use).
- the display (1) lights up and the device starts charging automatically.
- The battery symbol flashes during the charging process.
- The device cannot be used during the charging process.
- To end the charging process, disconnect the battery air pump from the charging cable.

## Fitting the air hose

To fit the air hose (5) to the air outlet (not shown), turn it clockwise. Dismantling is carried out in reverse order.

### Caution: Hot!

There is a risk of burns at the air outlet if the air hose (5) is disconnected immediately after using the battery air pump.

## Technical Specifications

Battery	1500mAh 7,4V
Type	Li Ion
Charging Input	DC 5V/ 2A
Max. Pressure	10 bar
Accuracy	+/- 0,1 bar
Noise level	~ 78 dB
Working Temperature	0 - 45°C
Charging temperature	0 - 45°C RH Less than 80% (No condensation)
Storage temperature	10°C - 40°C
Weight	0.5kg
Dimension (LxWxH)	18,2 x 6.4 x 8cm
Material	ABS + PC
Package contents	1x Main Unit, 1x Air hose, 1x USB cable (USB-A to USB-C), Adapter-set, 1x User Manual

## Support

Service phone No. for technical support: **01805 012643** (14 cent/minute from German fixed-line and 42 cent/minute from mobile networks). Free

Email: **support@technaxx.de**

The support hotline is available Mon-Fri from 9am to 1pm & 2pm to 5pm

## Care and maintenance

Clean the device only with a dry or slightly damp, lint-free cloth.

Do not use abrasive cleaners to clean the device.

Use the device in ultra-high or ultra-low temperature.

Deliver or use it in strongly shocking environment.

## Declaration of Conformity

The EU Declaration of Conformity can be requested at the following address: [www.technaxx.de/](http://www.technaxx.de/) (in the lower bar "Declaration of Conformity").

## Disposal

Disposal of the packaging. Sort packaging materials by type upon disposal.

Dispose of cardboard and paperboard in the waste paper. Foils should be submitted for recyclables collection.

Disposing of old equipment (Applies in the European Union and other European countries with separate collection (collection of recyclable materials) Old equipment must not be disposed of with household waste! Every consumer is required by law to

dispose of old devices that can no longer be used separately from household waste, e.g. at a collection point in his or her municipality or district. This ensures that the old devices are properly recycled and that negative effects on the environment are avoided. For this reason, electrical devices are marked with the symbol shown here.

Batteries and rechargeable batteries must not be disposed of in household waste! As a consumer, you are required by law to dispose of all batteries and rechargeable batteries, whether they contain harmful substances\* or not, at a collection point in your

community/city or with a retailer, to ensure that the batteries can be disposed of in an environmentally friendly manner. \* marked with: Cd = cadmium, Hg = mercury, Pb = lead. Return your product to your collection point with the fully discharged battery installed inside!
