Charging and Sleep function

Please connect the device via Micro-USB to a USB interface of your computer. The device is now charging. The four LED-Indicator light flash simultaneously. The lights turn off when the charging is completed. When the battery status is low, the LED-Indicator lights flash rapidly. The device turns into sleep mode, if it is not used within 5 Minutes. Press the Power/Pairing-Button for two seconds to turn the device on again.

Connect with PS3 Game console by Micro-USB cable

Press the Start-Button on the device and connect it to the console's USB port via the USB cable. The LED-Indicator light shines.

Connect with Windows Computer by Micro-USB cable

Press the Start-Button on the device and connect it to the computers USB interface via the USB cable.

Connect to Computer via Bluetooth

1. Press and hold the Power/Pairing-Button + X-Button for two seconds until the LED-Indicator light flashes. The device is now in pairing mode. ***Note: (If your computer has Bluetooth function, please go to step 4)***
2. Insert a Bluetooth-Dongle (not included) with Bluetooth 3.0 (or above) version into the USB interface of your computer.
3. After the driver for the Bluetooth-Dongle is installed successfully the Bluetooth Symbol is displayed in the lower right corner of the computer Desktop.
4. Move the mouse to the Bluetooth symbol, click the right button and select «Add device».

5. After selecting «Add device» you can search for TG-126 in the Bluetooth list and click on it with the left mouse button.
6. Click «next» with the mouse and select «Do not use the code to match». It will be automatically added after confirmed. The computer shows that the device is connected. After connection the LED-Indicator light shines. The device is now ready to use.

Hints

- The device is intended exclusively for private and not for commercial use.
- Only use this device as described in this user manual.
- Do not place any part of this device in water or any other liquid.
- Do not handle the device with wet hands.
- When disconnecting the cable, always pull at the plug. Do not pull on the cable itself.
- Do not let the power cord on the edge of a table or work surface.
- Prevent it comes into contact with hot surfaces.
- Keep it away from heat sources to avoid deformation of plastic parts.

Safety instructions

- Rebuilding or modifying the product impairs product safety.
- All modifications and repairs of the device or accessories must be performed by the manufacturer or by persons expressly authorized by the manufacturer.
- Never open the product by yourself. Never perform repairs by yourself!
- Handle the product carefully. It can be damaged by knocks, blows or even by falling from low height.
- Keep the product away from damp, moisture and extreme heat.
- Never immerse the product in water or other fluids.
- Technical specifications are subject to change without notice.
- Never heat the battery above 60°C and do not drop or throw it into the fire! Danger of explosion/fire hazard!
- Do not short-circuit the battery.
- Do not subject the battery to mechanical stress. Avoid dropping, striking, bending, twisting or cutting the battery.
- Discontinue the charging process immediately should the battery become overheated. A battery that becomes overheated or deformed during the charging process is defective and should no longer be used.
- Never drain the battery completely, as this shortens its lifetime.
- If the battery must be stored, it is recommended that it be stored at 30% of its loading volume. Store out of direct sunlight. Ideal storage temperature: 10–20°C.
- Keep the product away from little children.
