### Features

- Foldable, compact design, perfect for hiking, camping and outdoors
- 2x USB port in one pocket for easy charging of power banks and smartphones
- Fabric cover made of PET material

### Technical specification

Max. power	21W
Max. voltage	6V
Current	3.5A Max
Efficiency	>19%
Solar panel	Monocrystalline solar cell
Operating temperature	+10°C~+40°C
Material	PET
Plug type	2x USB-A (3.5A Max.)
Device weight / dimension	0.8kg / 29 (70) x 17 x 3cm
Package contents	21W Solar charging pocket TX-207, user manual

### Safety instructions

- Observe the safety instructions during use.
- Installation and commissioning may only be carried out by authorized electricians.
- Any modification or alteration of the product will affect the safety of the product. Caution risk of injury!
- All changes and repairs to the product or its accessories may only be carried out by the manufacturer or by persons expressly authorized by the manufacturer.
- Never open the product without authorization.
- Never carry out repairs yourself!
- Handle the product with care. It can be damaged by shaking or falling from a small height.
- Never immerse the product in water or other liquids.
- The solar panel may only be used in accordance with its suitability.
- The solar panel must not be technically modified.
- Keep moisture away from tools and the work environment!
- Only connect cables with dry plugs.
- Do not insert any electrically conductive parts into the plug connection of the solar module.
- Never connect directly to house power.
- Technical changes and errors reserved.

### CAUTION

- Output plugs are under current – Risk of injury!
- Never leave the plugs in wet environment or immerse in water or other liquids.
- Keep children away from this solar panel.
- Do not leave the devices in the sun during charging. Overheating may occur.

### Mounting instructions

- Place the solar panel in a bright place with long exposure to the sun. Best power will gain when sun hits the panel in 90°.
- Shade significantly reduces the power output. Avoid shady areas, e.g. trees, walls etc.
- A southern exposure is preferable.
- Observe the local instructions and restrictions for the use of solar energy.

### Usage of the solar panel

Unfold the solar panel and place it into the sun. Use the mounting tabs for optional attachment with cords or at tent rods. The solar panel has two USB-A 5V outputs with maximum 3.5A current for both outputs.

**Note:** Usage of both USB-ports will split the 3.5A output power.

### Support

Service phone No. for technical support: **01805 012643** (14 cent/minute from German fixed-line and 42 cent/minute from mobile networks). Free Email: **support@technaxx.de**  
The support hotline is available Mon-Fri from 9 am to 1 pm & 2 pm to 5 pm.

### Cleaning and maintenance

**Danger!** Always work without current and not under load. Unplug all cables and cover the solar panel to avoid electric shock.  
• Clean the equipment regularly with a moist cloth. Do not use cleaning agents or solvents. • Ensure that no water can seep into the plugs. The ingress of water into an electric device increases the risk of an electric shock or damage of the device.

### Declaration of Conformity

 The EU Declaration of Conformity can be requested at the following address: [www.technaxx.de/](http://www.technaxx.de/) (in the lower bar "Declaration of Conformity").

### Disposal

Disposal of the packaging. Sort packaging materials by type upon disposal.

Dispose of cardboard and paperboard in the waste paper. Foils should be submitted for recyclables collection.

Disposing of old equipment (Applies in the European Union and other European countries with separate collection (collection of recyclable materials) Old equipment must not be disposed of with household

waste! Every consumer is required by law to dispose of old devices that can no longer be used separately from household waste, e.g. at a collection point in his or her municipality or district. This ensures that the old devices are properly recycled and that negative effects on the environment are avoided. For this reason, electrical devices are marked with the symbol shown here.
