

USB-C Endoscope Camera / Inspection Camera

- This compact USB-C endoscope camera features an 8 mm lens with a resolution of 1920 × 1440 pixels (interpolated) at 25 fps and delivers clear images directly to your smartphone (iOS & Android)
- Thanks to IP67-certified waterproofing, useful adapters and 8 dimmable LEDs, it is perfect for use in dark, damp or hard-to-reach areas
- The 60° wide-angle provides a wide field of view, while the 5-meter-long, semi-flexible cable offers versatile inspection options
- Photo and video recordings are conveniently made via app in JPG / MP4 format
