4-Port USB & 3-Socket Car Charger TE11

4-Port USB & 3-Socket Car Charger TE11

Charge 4 USB devices
simultaneously

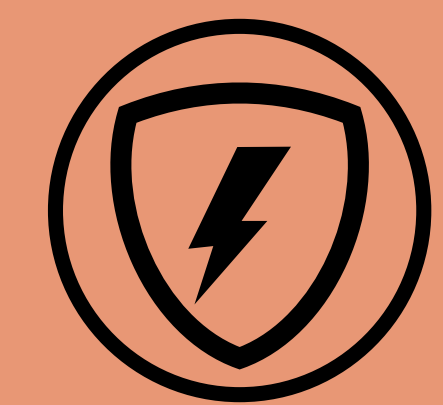

USB Single output current
2x 1.0A and 2x 2.4A

Fast and efficient car
charger with 6.8A

3 cigarette lighter sockets

5V 7A over voltage & over
current protection

ON/OFF switch

Universal Charger

Charge any of your mobile devices fast and safely – smartphones, tablets, audio-video players, headphones, etc. It can charge up to 4 devices at the same time. 3 cigarette lighter sockets makes it really universal, because you can plug in another car charger, ionizer, fm transmitter, etc.

Protection

Intelligent IC safety technology, reverse plug protection, short circuits, overheating, over-discharge, over-voltages, overloads, deep discharges and over-current, makes it totally safe for use.

Charging Function

This charging hub can charge devices up to 80% in only 35 minutes which provides 3-4x faster charging speed. USB charging with max. 2.4A (2 ports) and 1.0A (2 ports) outputs makes it really fast and convenience.

Handy Size

Lightweight and compact construction makes it portable and convenient for storage and space saving. Easily fits in glove compartment.
