Wireless & Handsfree

Music transfer and handsfree function via Bluetooth V4.2 provides more stable transmission speed, better audio quality and lower latency. These earplugs give you a full musical enjoyment and the built-in microphone allows a hands-free clear communication.

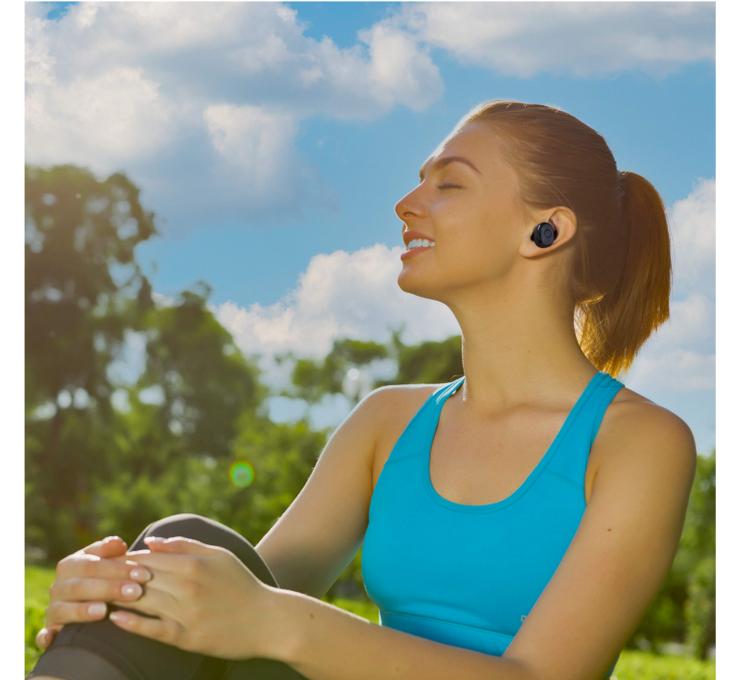

Noise & Echo Reduction

Technology is a staple of the modern headphone industry. And noise & echo reduction guarantee minimal distraction, even in noisy environments. Enjoy your favorite music during long trips, in airplanes or even in loud city traffic.

Multi-Functional Touch Buttons

On both in-ear headphones, so you can operate with it using both, right and left hand, what makes it pretty universal. Play/pause/title change, answer and reject phone calls, voice assistant.

Built-in microphone

No need to take out your smartphone from pocket if you're getting a call. You can just answer it with voice assistant and keep going. True handsfree makes it more convenient to you.
