# Radiator Fan - Mono Set TX-302
## for radiators 50-70cm

- 🔧 **Fast and easy installation**
- ⚡ **Reduces energy costs**
- ✅ **Fits most radiators and convectors**
- ≤1W **Low power consumption**
- ≈35m³/h **High airflow**
- <20dB **Low noise level**
- 📶 **Automatic turn on/off via temperature sensor**
- 🧩 **Connect up to 3 devices (1x TX-302, 2x TX-303)**

- **Allows you to lower the temperature of your heating system and save energy and money**
- **Heats up your rooms very quickly**
- **Very low power consumption**
- **Easy to install and fits most steel hot water radiators and convectors**
- **Automatic on/off thanks to the included temperature sensor**
- **Super quiet while optimizing the air flow**

**Technical specifications:**
- Power consumption: ≤ 1W
- External charger: In: AC100-240V~50/60Hz; 0.4A Max; Out: DC5V/2A
- Airflow: 24-25cfm / 34-35m³/h
- Fan speed: 1800rpm
- Noise level: < 20 dB
- Temperature sensor: On: 35°C; Off: 25°C
- Working temperature: -20 - 85°C; RH Less than 80% (No condensation)
- Storage temperature: -40°C - +85°C
- Weight: 0.32kg
- Dimension (LxWxH): 34.5 x 7.0 x 2.5cm
- Material: ABS + PC
- Compatibility: Radiator Fan - Extension TX-303

**Package Contents:**
1x MainUnit, 1x Temperature sensor,
1x Power adapter (EU&UK), 1x User Manual
