

Connection cable inverter BC01 Schuko 5 m TX-211

- 5m Schuko cable for connection from the inverter to the Schuko outlet
- Betteri socket (BC01) to Schuko plug firmly encapsulated
- Suitable for outdoor use (UV & ozone resistant)
- Outer sheath: rubber insulation compound (H07RN-F 3G1.5)
- Schuko plug IP44

Technical specifications:

- Length: 5 m
- Suitable for outdoor use
- Outer sheath: rubber insulation compound
- Connections: Betteri socket, Schuko plug IP44
- Standard: H07RN-F 3G1.5
- UV & ozone resistant

Cable for connection from the inverter to the earthed socket. One connection side consists of a Betteri socket and the other side is fitted with a Schuko plug. The Schuko plug is moulded.

Please note that for safety reasons, operation with a Schuko plug is only permitted with a Hoymiles inverter. Use with a Deye inverter is not permitted.

Art. No.: 5020
