## Multipurpose

Charge all your mobile devices quickly and safely - smartphones, tablets, audio-video players, headphones, etc. Charge up to 4 devices simultaneously. Both 2x USB ports on the cigarette lighter adapter, and 2x USB ports on the rear clip. This can be run from the front to the rear through a 1.8m extension cable. This makes it possible to charge smartphones or tablets in the front and rear at the same time.

## Protection

Intelligent IC safety technology, reverse plug protection, short circuits, overheating, over-discharge, over-voltages, overloads, deep discharges and over-current, makes it totally safe for use.

## Quick Charging

Can charge devices up to 80% in only 35 minutes which provides 3-4x faster charging speed. USB charging with max. 2.4A output makes it really fast and convenience.

## Handy Size

Lightweight and compact construction makes it portable and convenient for storage and space saving. Easily fits in glove compartment.
