Remote Control

This function gives you a full freedom of operating.

Change modes/volume/lights/etc. by pressing just one button. Very useful function for indoor, especially in big houses.

Performance

With an output of 4x10W speakers the sound bar is perfect for home cinema applications and music streaming thanks to its numerous connection options. Bluetooth enables wireless playback of sound from smart devices such as tablets and smartphones.

Multiple Connections

Supports AUX, USB, bluetooth, optical. Compatible with flat-panel TV, Fire stick, DVD player and more. Optical mode provides the best sound quality. DAB+ and FM radio function with over 27,000 international stations that are sorted according to country, genre and popularity.

LED Lights & Display

LED effect light with 7 selectable colours and illuminated LCD display (2,7x1,5cm) makes it really convenient for use. Clock & alarm function also will be useful for home usage.
